### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

**Status of the Claims**

Claims 1-4 and 9-10 are pending.

This is in response to applicant's amendment filed on 07/03/08.

***Information Disclosure Statement***

Receipt of the Information Disclosure Statement filed on 07/03/08 is acknowledged and has been entered into the file. A signed copy of the 1449 is attached herewith.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The rejection of claim 6 under 35 U.S.C 112 first paragraph has been withdrawn in view of the cancellation of the claim.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of claims 1-4 under 35 U.S.C second paragraph has been withdrawn in view of the amendment to the claims.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1624

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 and 9 remain rejected under 35 U.S.C. 102(b) as being anticipated by Blumberg et al., and Ohtaka et al., both cited previously for the reasons set forth in the previous office action mailed on 03/24/08.

### ***Response to Amendment***

Applicant's arguments filed 07/03/08 have been fully considered but they are not persuasive. Applicants argued that amendments to claims 1, 4 and 9 exclude said claims from a rejection under 35 U.S.C. 102 (b). Contrary to applicant's assertion, alternative definition of R<sub>1</sub>, wherein R<sub>1</sub> can be halo embraces the current claims. Additionally, Ohtaka et al., intermediate compounds in columns 3 and 4 do read on the current claims. Thus, for the reasons of record, claims 1, 4 and 9 remain rejected under 35 U.S.C. 102 (b). Moreover, contrary to applicant's statement, claim 6 has been cancelled.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4 and 9 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application

Art Unit: 1624

was filed, had possession of the claimed invention. Applicants recite a proviso on the last line of claim 1, i.e., "with the proviso that compounds wherein X is -O-C-C-C- are excluded". The said phrase i.e., proviso, is **not** supported by the original disclosure and thus, is considered new matter. Additionally, applicants point to pages 155-156 of the specification for support of the amendments to the claims, however, the specification has only 154 pages, **not** 156.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
